## ABOUT ME

I am a freelance web developer and designer with front-end and back-end experience. I always look for a new challenge or opportunity to excel.

## EXPERIENCE

### Freelance Web Developer and Designer

Upwork • Online

January 2016 - Present

Online freelancer at Upwork working on various projects such as Web Developer, Web Designer, Programmer, Graphic Designer, Social Media Marketer, Python Instructor

- Use of the following technologies: SQLite, Swift, Python, Django, Javascript, jQuery, CSS, HTML5, Wix, Adobe Suite
- Met or exceed client expectations of finalized product/project
- Developed a multi-featured app for the web
- Hand-coded over 5,000 lines of code
- Instruct and teach Python to 10+ students via Zoom

### Web Developer and Graphic Designer

Keller Williams • Online

January 2016 - Present

Website developer and graphic designer for Danny Greco, a Seattle Real Estate Agent

- Designed client's website, [www.dannygrecohomes.com](http://www.dannygrecohomes.com), from concept to deployment
- Create monthly newsletters covering market trends, neighborhood highlights, and trending news
- Create and develop graphic design elements, marketable pamphlets, packets, infographics, open house flyers, presentations, design property signage, and advertisements.

### Full Stack Software Engineer Trainee

Coding Dojo • Online

June 2016 - December 2017

Comprehensive full-stack software development training program. Built strong fundamental knowledge, worked on various fully functional projects, and completed algorithm challenges.

- HTML5/CSS3, jQuery, Bootstrap, Fundamental JavaScript, API Integration, AJAX, and Git
- Used Python language with micro-framework Flask and MySQL to build small-scale projects
- Develop large-scale projects using Django + SQLite
- Deploy projects using AWS
